

Good morning Montgomery County Councilmembers,

I am writing to ask you to please oppose Vaccine Passports.

There are many reasons why it makes sense to vote NO to the proposed mandate.

The safety of mRNA vaccines:

Operation Warp Speed pushed these emergency “vaccines” out before they had been properly tested. Even one of the biggest proponents of the COVID shots, Dr Fauci, admits it will take decades to determine the efficacy of the mRNA “vaccine”. Drs and scientist do not know its long term effects. With unclear data, it seems wrong to force people to “get the jab”. People should be permitted to make their own choice as to whether they want to get vaccinated based on their beliefs and/or their doctor’s recommendation. It concerns me that politicians are dabbling in the scientific/medical/religious field.

The “vaccine” does not stop the spread of COVID:

As we know, people who have been vaccinated are still contracting and spreading the virus. The push to get the “jab” has been to lessen the severity of the symptoms of COVID. That tends to be more of a concern if a person’s health is generally compromised. Healthy and young people tend not to be adversely affected. Again, let people and their doctors make the right choice.

Omicron is here:

Science has stated the more prevalent omicron variant lives in the upper respiratory system – rather than in the lungs. It therefore tends to be more contagious and also less severe. Could Omicron be God’s way of providing immunity to us all?

Let God be God:

Man should not be mucking with our cell structure.

HIPPA:

The Federal Law protects us from having to divulge our health records. Having to show a vaccine passport goes against that right to privacy

Discrimination:

If Black Lives Matter and LGBTQ Lives Matter then Unvaccinated Lives Matter. Discrimination is discrimination.

Our economy:

If Montgomery County approves this passport, people who have not been “vaccinated” will take their business to other counties. Businesses will suffer. Please do not add to the already difficult times.

Please seriously consider these reasons. I pray you too will see that opposing Vaccine Mandates is best for Montgomery County.

Thank you for your time and attention.

Kathleen Lloyd
